

Oil Spill India 2016

4th International Conference & Exhibition

In Association With

Supported By

11th & 12th August 2016, JW Marriott, Sahar, Mumbai, India

Strategic Partners

OSI

TM

Theme:
Commitment, Synergy, Excellence

www.oilspillindia.org

Organised By

iTEN MEDIA™

At the outset, I hereby convey my compliments to the Conference Chairman, Global Brand Ambassador & members of the Advisory Board of the Oil Spill India (OSI)-2016, on the launch of the 4th edition of the OSI Conference slated to be held in 11th & 12th August 2016 at JW Marriott, Sahar, Mumbai.

Oil Spill India has now come a long way since its inaugural take – off four years ago. I am confident that the OSI would go from strength to strength as years roll by.

The theme of the upcoming conference 'Commitment, Synergy & Excellence' is extremely contemporary, topical and futuristic. The sheer scale of maritime incidents like oil spill are so daunting & challenging that we need to collectively push the frontiers of cutting-edge technology and innovation that would drive synergies in planning, prevention, response, containment & restoration efforts to redress, mitigate & pre-empt such incidents, going forward. While technology, knowledge & innovation are the need of the hour, there is a compelling imperative for capacity building / human resource development and creation of a very calibrated & dispersed awareness.

There are a multitude of stakeholders who need to be on board this vital national disaster response preparedness mission. To be fore-armed is to be fore-warned. In the run-up to the event it is extremely crucial that there is mass dissemination of information & awareness about this theme as the same is at a discount, largely. Looking at the climate change forces & dynamics at play, globally, the future generations will clearly hold us as having been derelict if we do not contribute individually & collectively towards the cause of environmental protection.

While I look forward to the OSI Conference in 11th & 12th August 2016, please be assured that as the National Maritime Administration of India, the Directorate General of Shipping, Govt. of India will be more than happy to collaborate and partner with the OSI 2016. I exhort all the stakeholders involved in this extremely challenging, complex task and convey my best wishes for the success of this event.

Shri Deepak Shetty, IRS
Director General of Shipping
Govt. of India, Mumbai

Dear Industry Colleagues,

In the wake of the recent Sundarbans Oil Spill incident, we are yet again reminded of the fragility of similar eco-sensitive areas in the waters following any oil spill & the increasing amount of uncertainty for similar incidents. Fortunately since the last Oil Spill India Conference in September 2014 at Goa, the quantum of work been done & the progress made on actionable points by various stakeholders of the industry led by Indian Coast Guards (ICG) has been noteworthy.

We are riding a new wave of expansive research, innovation and renewed dedication to advancing effectiveness in oil spill response capabilities. Leading the wave of change is the Indian Coast Guard through numerous measures including: the recently released & comprehensively revised National Oil Spill Disaster Contingency Plan 2015 (NOS-DCP), which meets international standards; An Online Oil Spill Advisory system-a system that places India amongst a select list of countries that have indigenously developed capabilities for prediction of trajectory of oil spills; Mapping of environmental sensitivities in coastal zones, deployment of Aerial Dispersant Spray System & finally facilitating the regional oil spill contingency plans under the auspices of the South Asia Cooperative Environment Program of the United Nations including development of national plans for Maldives and Sri Lanka.

One of the central goals of the Oil Spill India (OSI) Conference is to partake at this critical juncture in bringing a promising future for the global oil spill industry & its stakeholders. Since its inception in 2011, OSI has continually evolved & OSI 2016 will be no exception in meeting the changing needs and interests of the community that it serves. Themed "Commitment, Synergy, Excellence" OSI 2016 will continue its tradition of providing a forum on stakeholders commitment for Environmental Sustainability, Oil Spill Preparedness & Prevention, the need for Synergy in Oil Spill Response & Excellence in Restoration efforts.

It is with great pleasure that the undersigned, on behalf of the Advisory Board, invite you to participate in the 4th edition of Oil Spill India Conference (OSI), to be held in 11th & 12th August 2016, JW Marriott, Sahar, Mumbai.

Whether you are a technologist seeking to describe a new development, a scientist or engineer wishing to share a new application or an oil producer wanting to share experiences of your specific needs, Oil Spill India conference provides you with a unique opportunity.

Please join us in this noble cause. Your participation is integral in achieving the objectives of this conference and the effectiveness of the international oil spill community.

Yours Sincerely,

Shri A. K. Hazarika
Conference Chairman
OSI 2016

Ladies & Gentlemen

It gives me immense gratification to extend very warm & cordial greetings to one & all !!

In today's progressive world we are faced with the dual challenge of developing our economy and protecting the environment. Under no circumstances, should economic growth & development take precedence over protection of environment. Almost all maritime casualties, regardless of cargo, represent a potential threat to the environment. Renewable energy technology is also playing a vital role in reducing the quantities of CO₂ emissions released into the atmosphere and contributing to reduction of the greenhouse effect. The challenges faced by the maritime industry globally with respect to sustainment

of marine environment are common and the need of the hour is a comprehensive prevention, response and compensation regime. Pollution defence is at the top of the agenda.

A documented methodology for undertaking any contingency is a prerequisite for a dynamic system. A comprehensive response system must follow the "cradle to grave" philosophy. This implies that the system should cover all relevant aspects from the initial phase of causality management, on scene mobilisation, spill monitoring, response & defueling operations, salvage or wreck removal, waste disposal, monitoring chemical and environmental effects and cleanup post completion.

"Oil Spill India" (OSI) under aegis of "ITEN MEDIA" has been a frontrunner in addressing the impacts of spills at National & International level. Launched in 2011, it is a unique event held in the country which brings together the global experts under one roof. The undersigned is proud to be associated with this noble endeavour since its inception and has witnessed the ever growing support, guidance and response from the world community. Many of you had travelled long distances to participate in the OSI in 2011, 2012 & 2014 and made these three editions extremely successful. Kindly accept my deepest gratitude for your support.

The fourth innings of OSI conference & exhibition will be unique, as we introduce Emergency response, Salvage & Wreck Removal in addition to Spill Response, a combination rarely witnessed under one roof, in any part of the world. Needless to mention, that all these subjects go hand in hand during any maritime causality.

The undersigned is convinced that "OSI 2016" will provide an international platform to consolidate our commitment towards the Environment under the theme "Commitment, Synergy, Excellence".

OSI looks forward to your support & contribution as an expert Speaker, Panelist, Regulator, Administrator, Official from Coast Guard, Navy, Flag/Port state, Shipyard, Port Authorities, Shipping lines, Offshore or Logistics services provider, Classification society, P&I/ H&M clubs, Maritime Lawyer, Salvors, as delegates, sponsors or partners, whether you are engaged in E&P exploration, upstream or downstream oil company, Funds, Oil majors, oilfield production, exporter or carrier of Oil or Hazardous substances, Spill response or equipment manufacturers, OEMs, Training institute or Trade association, pursuing CSR initiative in corporate or private sector or a citizen who is involved and/or concerned about environment and impact of pollution on our existence.

In the spirit of true cooperation, we in this region of the world are proud of nurturing all past / present civilizations + cultures and invite the national + global players to join hands in an action-oriented effort to combat and resolve our common concerns.

It is with great pleasure that the undersigned, on behalf of the Advisory Board, invite you to participate in the 4th edition of Oil Spill India Conference & Exhibition, to be held at the Gateway to India, Mumbai, Scheduled on 11th & 12th August 2016, JW Marriott, Sahar, Mumbai.

Yours Sincerely

Capt. Sandeep Kalia, RMS, MIIMS, AFNI, FCMMI
Global Brand Ambassador
Co -Chairman~Advisory Board, OSI 2016

Warm Greetings !!

Climate Change & Environmental Disaster mitigation are attendant issues that have now become emergent with each passing day in today's world. Sustainability challenges figure high on agendas as companies reshape the energy basket and we are sanguine that guidance on managing energy security issues through sustainable work practices and climate friendly technology will emerge.

Given the complexity and challenges that the energy businesses face in delivering energy for sustainable development of the world, responsible culture needs to be incorporated at all levels, from the small communities where they operate and throughout their global business. Implementing sustainable practices leads to good business and is integral to helping companies retain their social license to operate.

Designed to address these key issues of the industry, Oil Spill India (OSI) is now one of the premier global events that brings together the national, regional & global stakeholders of industry to deliberate, demonstrate & collaborate on spill planning, prevention, response & restoration systems. It is intended to function as a thought-starter, change-agent and signpost through the intellectual capital that accrues through the plenary and technical tracks of this conference. An event of immense significance to the sector, OSI has been well substantiated by its previous editions with its widespread acknowledgment and attendance from the global spill mitigation fraternity.

This 4th edition promises to continue with the rich legacy of this prestigious event by bringing to you a rich assortment of diverse, pertinent and eminently interesting subjects of concern to the spill, salvage, wreck removal & marine disaster industries besides showcasing the technological depth and knowledge repertoire of the industry to the wider global audience, thus setting the stage for the future through "commitment, synergy and excellence".

Apart from the impressive front-end portfolio of the Conference and the Exhibition, there are vast networking opportunities at the back-end. Platforms like OSI are vital to catalyze bilateral and multilateral agreements, especially at a juncture where synergy is crucial for crafting a win-win solution.

An event is only as good as the people who participate in it. While we provide the opportunity, it is your participation that will truly help us achieve our intended objectives. We look forward to your participation as experts, partners, delegates and exhibitors to help the global mitigation fraternity learn from your experience.

On behalf of iTEN Media the Organisers of Oil Spill India (OSI), I extend a warm welcome to the global fraternity to join us for the 4th edition of this International Conference and Exhibition scheduled in 11th & 12th August 2016, JW Marriott, Sahar, Mumbai, India.

Your Sincerely,

Abhishek Bhatnagar

About Oil Spill India

Established in 2011, Oil Spill India (OSI) is an International Conference & Exhibition on Oil Spill Prevention, Preparedness, Response & Restoration systems. Over the years OSI has created a global forum for governments, regulators, industry, academia and response organizations to discuss, deliberate, share & learn the best of practices, technologies & experiences in oil spill management.

Each edition of Oil Spill India has witnessed the world's most eminent experts including Policy Makers, CEO's of Oil Producers, Regulators, Responders & Technology Providers delivering Plenary & Keynote Addresses, Case Studies,

Forecast Papers and breakthrough Research papers highlighting the raising global focus on oil spill management.

The concurrent exhibition has over the years showcased global technology & equipment suppliers displaying the latest in equipment, technology, services & solutions for prevention & response of oil spill.

The 4th edition of this international forum; OSI 2016 scheduled at 11th & 12th August 2016, JW Marriott, Sahar, Mumbai, India will be no exception in meeting the changing needs and interests of the global industry that it serves. Themed "Commitment, Synergy, Excellence" OSI 2016 will continue its tradition of providing a forum on stakeholder's commitment for Environmental Sustainability, Oil Spill Preparedness & Prevention, the need for Synergy in Oil Spill Response & Excellence in Restoration efforts.

It would also showcase case studies on some of the world's worst oil spills, and their associated risks faced by Governments, Industry, Users and the Public.

The Key areas of cooperation & discussions at OSI 2016 would be:

- Global & Regional Initiatives
- Regulatory & Legal Developments
- Stakeholder Integration
- Current & Emerging Risks
- Inland & Marine Response Management
- Breakthrough Technologies
- Recent Case Studies
- Assessment & Remediation
- Training & Exercises
- Contingency Planning & Preparedness

Conference Theme

Oil Spill India 2016 aims to tackle the most prevalent issues facing the global oil spill industry. The summit agenda would stimulate learning through panel debates, technical case studies and keynote sessions that ensure that attendee's leave with the skills and knowledge required in overcoming the challenges & risks faced by operators & stakeholders. The theme for this year's conference is:

“COMMITMENT, SYNERGY, EXCELLENCE”

Focusing on stakeholders “Commitment” for environmental sustainability, oil spill preparedness & prevention, the need for “Synergy” in oil spill response & “Excellence” in restoration efforts.

Conference Agenda

S.No.	Date	Time	Session Details	Session Theme
1	11 th August 2016	0830-0930 Hrs.	Registration & Networking	
		0945-1045 Hrs.	Inaugural Session	Commitment, Synergy, Excellence
		1045-1115Hrs.	Exhibition Inauguration/ Tea-Coffee Break	
		1115-1200 Hrs.	Plenary Session 1	Global & National Initiatives
		1200-1315 Hrs.	Technical Session - I	Global Best Practices Stakeholder Integration
		1315-1400 Hrs.	Lunch	
		1400-1510 Hrs.	Technical Session - II	Risks in Marine Environment
		1510-1530 Hrs.	Networking over Tea/Coffee	
		1530-1700 Hrs.	Technical Session - III	Environment and Pollution Management
END OF DAY ONE				
2	12 th August 2016	0930-1050 Hrs.	Plenary Session 2	Commitment & Synergy - Command & Control
		1050-1115 Hrs.	Networking over Tea/Coffee	
		1115-1200 Hrs.	Panel Discussion	Preparedness & Response Capabilities
		1200-1315 Hrs.	Technical Session - IV	Surveillance Technologies & Techniques for Spill detection
		1315-1400 Hrs.	Lunch	
		1400-1525 Hrs.	Technical Session-V	Role of Salvors, Spill, Responders & Clean up Agencies
		1525-1545 Hrs.	Networking over Tea/Coffee	
		1545-1700 Hrs.	Technical Session-VI	Funding, Insurance, Legal & Training
		1700-1745 Hrs.	OSI Advisory Board Panel Discussion	
		1745-1800 Hrs.	Chairman's Summary and Vote of Thanks	

Why Attend or Exhibit

Increasing Global concerns on Oil Spill threats & after effects have pushed decision makers across the industry to actively implement strategic contingency plans & explore proven strategies and technologies in tackling the challenges of oil spill, ensuring their organizations achieve the zero incident benchmarks.

OSI 2016 offers a thought-provoking working environment to reach out, meet and network with industry leaders and key decision makers as they explore how technological and operating advances can benefit their organization in oil spill planning, preparedness, response & restoration.

The concurrent exhibition provides organisations with an excellent opportunity to showcase their products and services to decision makers and influencers from the industry in the region & beyond.

Following are the Key benefits:

- Generate leads by meeting 500 industry stakeholders including operators, regulators & responders at the region's largest oil spill event.
- Create demand for your products & services by giving clients first-hand experience of your products on-site.
- Launch new products to the largest gathering of industry professionals.
- Raise awareness & recognition and demonstrate your strength by continuing to reach out to your target market even in these difficult times.
- Build brand image by keeping your brand and solutions front of mind and on the buyers' shortlist.
- Save time & money and maximise your sales team's time by providing direct face-to-face access to the industry's decision makers.

Attendee Profile

The conference attendees would be primarily Environmentalists, HSSE Professionals, Plant / Operations managers, Regulators, Salvage Divers, Scientist & Engineers, Top Management and others concerned with oil spill prevention, response and restoration.

These attendees would be from following categories:

- ▶ Government Authorities, Nodal Agencies, Bureaucrats
- ▶ Oil, Gas & Petroleum Industry Professionals
- ▶ Maritime, Offshore, Shipping Industry Professionals
- ▶ Port Authorities, Private Ports, Shipyards
- ▶ Salvage & Wreck Removal Companies
- ▶ Global Marine Scientists and Researchers
- ▶ Global Spill Responders & Specialists
- ▶ Classification Societies, Pollution Control Boards
- ▶ Global Maritime Organisations, Associations & Unions
- ▶ OEMs, Pollution Response Equipment Suppliers
- ▶ P&I & H&M Clubs, Maritime Lawyers, Underwriters
- ▶ EH&S Professionals/ Plant and Asset Managers
- ▶ Flag & Port State Control - Advisors & Consultants
- ▶ Public Relation Companies- CSR initiative
- ▶ Well Control, Pipeline operations, storage facilities
- ▶ Tankers, Exploration, Tug & Barge operators
- ▶ Logistics Services providers, Fisheries, Hoteliers
- ▶ Petrochemical Facilities and Refineries
- ▶ Trade experts, Inland waterways, PSUs, Corporates

Exhibitor Profile

Exhibitors include, but are not limited to:

- ▶ Area Clean up/Restoration
- ▶ Aviation Services/Surveillance
- ▶ Wildlife Rescue and rehab Agencies
- ▶ Mapping Agencies
- ▶ Security Agencies (including port security)
- ▶ Prevention Systems (including spray system agencies)
- ▶ IT Software and Training
- ▶ Insurance (Liability/Pollution)
- ▶ Emergency Response Cell
- ▶ Electrical Generators
- ▶ Damage assessments
- ▶ Diving services
- ▶ HSSE services & equipments
- ▶ Bioremediation
- ▶ Field Equipment/ Services
- ▶ Satellite Tracking System
- ▶ Training Institutes
- ▶ Transport Services
- ▶ Water Treatment Agencies
- ▶ Temporary Power Companies
- ▶ Working Boats/ Small Boats/ Vessels Manufacturers
- ▶ Marine Salvage & Wreck Removal Companies
- ▶ HNS Companies

Snippet "OSI 2016" Launch Event

Venue

JW MARRIOTT

Mumbai Sahar

**IA Project Road,
Chhatrapati Shivaji International Airport,
Andheri, Mumbai - 400 099 INDIA**

JW Marriott luxury hotels and resorts provide business and leisure travellers with simple elegance, an inviting atmosphere, and a deluxe level of comfort and personal service on their terms.

JW Marriott, 5 star luxury hotel is located near the Chhatrapati Shivaji International Airport, Mumbai and a short drive from the Chhatrapati Shivaji Domestic Terminal. It is also close to the central business hub of North Mumbai, Andheri.

JW Marriott having the following amenities at their premises: High-speed Internet, Fitness center, Business center, Restaurant on-site, Pool, Kitchen/kitchenette, Plug In Panel, Room service, Parking, Meeting event space, Certified Meeting Planner, Meeting Services App, Meetings Imagined and Full Service Spa etc.

Mumbai

Mumbai also known as Bombay is BIG. It's full of dreamers, starlets, exotic birds, artists, fisherfolk lots & lots of people and billionaires. It is the most populous city in India; the ninth most populous agglomeration in the world yet hosts the largest tropical forest in an urban zone. The heart of the city now contains some of the grandest colonial-era architecture on the planet, explore a little more and you'll uncover unique bazaars, hidden temples, hipster enclaves and India's premier restaurants and nightlife. It's even evolved its own language, Bumbaiyya Hindi, which is a mix of... everything.

Mumbai is India's financial powerhouse and one of the world's top ten centers of commerce in terms of global financial flow, generating 6.16% of India's GDP, 25% of industrial output, 70% of maritime trade in India and 70% of capital transactions to India's economy. It is also the fashion epicenter and entertainment capital of India. It has world's most prolific film industry - a true galaxy of stars where Bollywood reigns supreme.

A melting pot of commerce, industry, entertainment and politics, Mumbai drives it's 20 million plus residents to conquer their dreams, aspirations & success stories. If Mumbai is your introduction to India, prepare yourself to experience its furious energy driven by commerce, power, wealth, glamour and fame !!

Testimonial

Deepak Shetty, IRS,
DG of Shipping & Additional Secretary to
the Govt. of India

“At the outset, I hereby convey my compliments to the Conference Chairman, Global Brand Ambassador & members of the Advisory Board of the Oil Spill India (OSI)-2016, on the launch of the 4th edition of the OSI Conference slated to be held in August 2016 at Mumbai.

Oil Spill India has now come a long way since its inaugural take – off four years ago. I am confident that the OSI would go from strength to strength as years roll by.”

Shri K. R. Sachar
Great Offshore Limited

“Spill in any form; be it from Oil, HNS, Hazardous substances etc. is one of the major threats for the marine environment. The consequences of Spills adversely affect harbours, beaches, wild life, fisheries, tourism and society at large.

I am very pleased to be associated with Oil Spill India under the aegis of iTEN Media as they are doing a wonderful job in addressing the serious impacts of spills. My best wishes to OSI 2016 and hope it will be a grand event with think tanks from across the globe, meeting under one roof..”

Shri A.K. Jain
ONGC

The awareness of Environmental impact due to spills & ship wrecks is not limited to Offshore Oil & Gas only, as there is persistent threat to our coastline, due to major flow of marine traffic, including large crude oil tankers. The incident of mammoth oil spill in Gulf of Mexico has drawn the focus to greater need of developing newer techniques, technologies and processes to deal with such disasters. The human endeavour to explore oil & gas in deeper waters and ecologically sensitive frontiers/zones has thrown new challenges on tools & techniques for protecting our environment in case of any spill. Oil Spill India 2016 is the leading forum in South East Asia dedicated to bring global stakeholders and experts under one roof to discuss issues relating to Oil / Hazmat spill, including salvors, underwriters, equipment manufacturers, logistics & offshore service providers, Oil & Gas industry besides the Shipping fraternity. My Best Wishes to OSI 2016.

Capt. Sandeep Kalia
RMS, MILMS, AFNI, FCMMI
Global Brand Ambassador Co -Chairman,
Advisory Board OSI-2016

“Oil Spill India is a unique platform which brings global stakeholders under one roof, deliberating on the topical issues of Emergency & Spill Response, Salvage & Wreck Removal a rare combination which is seldom witnessed in any part of the world.”

Dr. P.B. Rastogi
Ministry of Environment & Forests

“It was a well organized International Conference on the Oil Spills covering all aspects related to the subject and most probably updated all concerned on the subject. Wish you all the best for future endeavour.”

Dr. R. S. Kankara
Ministry of Earth Sciences

“The quality of conference was excellent.”

Thomas Liebert
IOPC Funds

“Thanks again for the invitation to OSI 2011 and congratulations for succeeding in organizing such a well attended event.”

Geraint Richards
Lamor Corporation Ab

“I feel the event was a great success and look forward to supporting the next one.”

Capt. shyam Jairam
Seaarland Management Services [India]
Pvt. Ltd.

“Always be prepared to take a spill”

Shri Subhajit Sarkar
Wipro Technologies

“I congratulate you all at iTEN media for conducting the event very successfully. It was a great pleasure to speak and network with very important dignitaries and stakeholders at this arena.”

Shri Surendra Jagtap
Essar Projects (India) Limited

“Oil spill control is still neophyte topic among various Disaster Management Programs worldwide. When you fully understand the situation, it is worse than you think. If you drill, there's going to be a spill. Thus we need to create Oil Spill awareness and persistence efforts in preventing, minimizing, and effective recovery and clean-up operations through such events.”

John P. Menezes
Menezes and Associates

“Congratulations to you and your team for putting up such a well organized event. The venue, the speakers, entertainment etc was well planned and executed.”

Capt. Derrick F Vaz
Phoenix Shipbuilders, Ship repairs & Dry
Dock Engineering

“Oil Spill India 2016....India's commitment to Statutory compliance, a reality in the offing.”

Shri R. K. Talukdar
ONGC

“Thanks to iTEN for organizing such an eye-opening Conference on the Oil Spill Hazard.”

Dr. Y.B. Sontakke
MPCB

“I am really thankful for your courtesy and nice organization of event”

Shri Dinesh Vaidya
Reliance Industries Limited

“We don't want an environmental disaster to become a human disaster.” Barkley Lloyd (Alaska Clean Seas).”

Capt. Farhat Imam
RESOLVE Marine Group, Inc

“I was pleased with his experience at Oil Spill India. Thank you for the opportunity to participate.”
